Subpart A—General Provisions

§ 1466.1 Applicability.

Through the Environmental Quality Incentives Program (EQIP), the Natural Resources Conservation Service (NRCS) provides assistance to eligible farmers and ranchers to address soil, water, air, and related natural resources concerns, and to encourage enhancements on their lands in an environmentally beneficial and cost-effective manner and to assist producers in complying with environmental regulations. The purposes of the program are achieved by implementing structural and land management conservation practices on eligible land.

§ 1466.2 Administration.

(a) The funds, facilities, and authorities of the Commodity Credit Corporation (CCC) are available to NRCS for carrying out EQIP. Accordingly, where

NRCS is mentioned in this part, it also refers to the CCC's funds, facilities, and authorities where applicable.

(b) NRCS and the Farm Service Agency (FSA) will consult, at the National level, in establishing policies, priorities, and guidelines related to the implementation of this part. FSA may continue to participate in EQIP through participation on State Technical Committees and Local Work Groups.

(c) NRCS supports "locally-led conservation" by using State Technical Committees at the state level and Local Work Groups at the county/parish level to advise NRCS on technical issues relating to the implementation of EQIP such as:

(1) Identification of priority natural resource concerns;

(2) Identification of which conservation practices should be eligible for financial assistance; and

(3) Establishment of cost-share rates and incentive payment levels.

(d) No delegation in this part to lower organizational levels shall preclude the Chief of NRCS from determining any issues arising under this Part or from reversing or modifying any determination made under this Part.

(e) NRCS may enter into agreements with other Federal or State agencies, Indian Tribes, conservation districts, units of local government, public or private organizations and individuals to assist NRCS with implementation of the program in this part.

§ 1466.3 Definitions.

The following definitions will apply to this part and all documents issued in accordance with this Part, unless specified otherwise:

Agricultural land means cropland, rangeland, pasture, private non-industrial forest land, and other land on which crops or livestock are produced.

Agricultural operation means a parcel or parcels of land whether contiguous or noncontiguous, constituting a cohesive management unit for agricultural purposes. An agricultural operation shall be regarded as located in the county in which the principle dwelling is situated, or if there is no dwelling thereon, it shall be regarded to be in
